www.britishherniasociety.org

Provisional Programme

Monday 5th November 2018

Emergency management of the abdominal wall

The management of:

- the emergency hernia
- effective abdominal wall closure
- the burst abdomen
- the open abdomen
- late reconstruction

Tuesday 6th November 2018

Hernia dilemmas for the surgeon

- PROMS: what should we be asking?
 - What is our approach to the patient who does not want a mesh?
 - What can we do under LA?
 - What do guidelines mean and tell us?
 - Is IPOM dead?
 - Techniques to keep the mesh out of the abdomen
 - Robotics - really?
- and more!
